The term 'research grant' is restricted to research projects funded by the UK research councils, charities and the higher education funding bodies.

All other externally financed research projects are classified as 'research contracts'.

Where approaches are to be made to outside bodies for support for research projects or where contracts are to be undertaken on behalf of such bodies, it is the responsibility of the Budget Holder to ensure that the financial implications have been appraised by the Director of Finance. This will include obtaining a set of grant terms and conditions from each organisation providing funding to enable appropriate monitoring of compliance.

The Director of Finance should ensure that the full cost of the project or contract is established. The agreement must be in line with the College's policy with regard to indirect costs and other expenses and taking account of different procedures for the pricing of research projects depending on the nature of the funding body.

Failure to respond to these conditions often means that the College will suffer a significant financial penalty. It is the responsibility of the named supervisor or grant holder to ensure that conditions of funding are met.

Any loss to the College resulting from a failure to meet conditions of funding is the responsibility of the budget holder and will be charged against departmental funds.
