UPLOADING DOCUMENTS TO YOUR STUDENT FUNDING APPLICATION

When you submit your online funding application you will be asked to provide documents to confirm the information you have entered on your funding application. You will see them immediately after you submit the application, and you can view them each time you login to your Hub account.

Your application will not be looked at by any staff or considered for processing unless you have uploaded a document for each evidence request.

You can submit your documents by scanning or taking a photo of them on your phone and uploading them direct into your application. You can do this at any time while your application is active.

You must ensure the photo or scan is clear and shows dates, names etc. Screenshots on your phone will **not** be acceptable if this information is not shown. We also require all pages of the document.

HOW TO UPLOAD YOUR DOCUMENTS

To upload the documents yourself, when you have logged into your UHI Records account, click on the Student Hub at the left of the screen and select Funding from the drop down.

You may get a screen which asks you to select the course for which you want to apply for funding. Your course should appear when you click on the drop-down button at the right of the field.
